Most popular walking tours in Japan

 beppuphoto-2-medium

Beppu Art Walk - a digital art tour of Beppu, Japan, has been reviewed by the National Tourism Website Taiken as one of the most popular walking tours in Japan. It was created by the [Beppu Art Project](#) and its international development manager Marianne Bevand, a French artist.

From traditional sites such as Hatoba Shrine, to modern, innovative places such as the artistically painted rooftop in Tokiwa Department store, Beppu appears as a place with hidden treasures, not only hot springs but also many contemporary artworks and creative initiatives.

[Marianne Bevand](#) speaks about the project:

When I first created 'Beppu Art Walk', it was in the aim of giving a greater visibility to the arts and creativity in Japan and making people look at a city as they have never done it before. It did not think that the Art Walk could receive such a positive and enthusiastic welcome, nor that it could reach such a wide range of people, locally and internationally.

This pushed me to innovate and create a digital version of the Art Walk in order to enable a larger audience to access to the content of the Art Walk and virtually hop on the tour for a memorable journey.

I am delighted to see that 'Beppu Art Walk' has been reviewed by Taiken Japan as one of the most popular 'Walking tours in Japan'.
