Founded in 1981, FiraTàrrega is a great shop window of what is going on in performing arts, with special emphasis on street arts, visual and unconventional shows. As a meeting place and an international point of reference for debate, the main objective of FiraTàrrega is to boost the performing arts market, opening the door to the internationalisation of the companies.

Other more specific objectives are the accompaniment and promotion of creations by emergent artists, encouraging training, focused on artistic creation and culture management and on generating strategic alliances to develop transnational street art circuits or productions.
