# Collaboration Grants 2024

The British Council is calling for applications from organisations for the second round of their International Collaboration Grants programme.

This grants programme encourages **new bilateral and multilateral partnerships**, providing funding to enable organisations to make and develop creative artwork with their international peers and help individual artists find innovative ways of collaborating.

Applications must demonstrate **genuine international collaboration and deliver explicit benefit to participating UK artists and organisations and their international partners**. Projects can address any theme and applicants are asked to share their approach to diversity, inclusion and environmental sustainability in the delivery of their project.

The scope of a project might be to collaborate on a piece of **art, a film, music or a piece of writing**, or could include any of the following:

- residencies
- exhibitions, festivals, showcases, performances, screening programmes
- projects which focus on or include digital innovation
- conferences, panels and talks
- creative use of archives
- research and development of future project ideas.

Although this is not a fund focusing on professional development, the outcome does not strictly need to be a completed artistic outcome. The development of skills can be part of a project with the primary outcomes supporting creative and artistic work.

**Grant projects should be completed by 30 September 2025.**

Each project should include at least **one UK-based organisation** and one organisation based in the countries listed as part of the partnership, including the following ASEM nations: **Bangladesh, China, India, Indonesia, Kazakhstan, Malaysia, Myanmar, Philippines, Thailand, and Viet Nam.**

Available grants range between **25,000 GBP** and **75,000 GBP**.
