# Coal Prize 2012 | Art and Environment

**The COAL PRIZE Art&Environment rewards each year a project about the environment by a contemporary artist. 2012 prize focuses on Rural Issues and Farming.**

The winner is chosen by a jury of personalities from the worlds of contemporary art, research, ecology and sustainable development, out of 10 finalists selected from an international call for entries.

The COAL prize is an opportunity to promote the entries and artists involved and to demonstrate the creative potential of fine arts with regards to the environment and related issues. The aim of the prize is to encourage artists to focus on environmental issues and helping to foster a culture of ecology.

**Special topic 2012 : the COAL PRIZE 2012 will reward entries that focus on RURAL ISSUES and FARMING.**

The COAL Prize, worth 10 000 euros, was launched in 2010 by the French association COAL, the coalition for art and sustainable development.
