Art Center Nabi Artist Residency programme is dedicated to fostering innovation and creativity at the intersection of **art, technology and society**. The Residency is a platform that supports artists from diverse cultural backgrounds to explore their ideas and connect with fellow practitioners at the heart of Seoul.

Through Nabi Artist Residency 2023, Art Center Nabi seeks to inhabit realms beyond the limits of technology and of types of knowledge circumscribed in technology through mobilising socio-cultural exchange. As part of Art Center Nabi's long-term research project **East meets East**, this residency aims to provide a fertile ground in which active engagements in defining and shaping ways of seeing, feeling and acting through the lens of 'East' take place.

During the residency programme, the participating artists will host an **exhibition** to present the result of their art projects in Nabi Artist Residency programme. Additionally, the artist will give **artist talks**.

After the end of the programme, the residency will develop domestic/foreign creative laboratories and media art centres to the artists to continue their follow-up projects.
