European music organisations

LIVEMX (supported by Music Moves Europe) is calling for project proposals that help music organisations and professionals to develop and strengthen their skills, abilities, processes and resources.

LIVEMX aims to nurture a more diverse and sustainable music sector through dedicated funding designed to answer some specific needs of the European music ecosystem in three specific areas:

- **Music export** (for developing music export through co-creation, promoting new music and artists abroad in innovative ways or developing professional networks and understanding of new markets)
- **Live music venues** (to develop artists' circulation in Europe, develop ecological solutions adapted to the live music sector or develop new audience strategies)
- **Digital circulation and engagement** (for adapting, testing or implementing existing digital solutions, training professionals or proposing formats to develop deeper understanding of the specific challenges in the music sector)

Eligible applicants must:

- be a public or private organisation
- be established in one of the 27 EU Member States or non-EU countries
- be established at least one year before the application submission date
- have a demonstrable track-record of working in the sector that is relevant in the context of their proposal (live music venues, music export or digital solutions that can be applied to the music sector).

Grants

Three strands of grants are for 20,000 EUR, 40,000 EUR and 60,000 EUR.
