10-14 november, bfi southbank, london
followed by international tour

onedotzero seeks explorations of new creative expression, visionary moving image and progressive visual ideas from three key disciplines:

animation + short film: renowned for uncovering the most innovative and exciting moving image work from all over the world, onedotzero continues to champion digitally inflected works across music video, animation, motion graphics, narrative shorts, experimental, documentary and generative art on a global platform.

installation: expanding out from the cinema, into the art gallery and beyond, to expose cutting-edge urban interventions, compelling interactive experiences and engaging audio-visual installation. both existing work and proposals for new projects will be considered. consider the technical delivery in your ideas.

live audio-visual performance: onedotzero has a passion for narrative driven live cinemata, explosive vj sets and intoxicating collaborations between musicians and artists. most recently onedotzero presented a series of dazzling one-off live events at the BFI IMAX, as part of the onedotzero_adventures in motion festival, london 2008. we can only do a limited amount of live shows at the london festival, but we also present work year round.
