### Aether Art Space

Æther Sofia/Haga are two sibling independent art spaces in the heart of Sofia (BG) and The Hague (NL).

Æther Sofia, founded in spring 2016 and run by Voin de Voin, creates with a programme of activities and exhibitions a possibility for experimentation and generates critical feedback on the contemporary obscurities of living

through **art, science, politics and activism**. With its activities it wishes to engage and **bridge the local and international art scene** in different propositions and activation of collective rituals and thinking. It asks to **strengthen the dialogue between artists and its publics**, shaping new ideas about art, history and the present states of both beings and affairs.

Æther Haga is initiated and curated by artists Marie Civikov and Voin de Voin and opened its doors in 2018. In The Hague (Haga/Xara) it occasionally presents a selection related to Æther Sofia's programme in Bulgaria and will unfold proposals of what **intersects along the East/West trajectory** based on the already started dialogues at the eastern point. Within this the project strives to make a more physical bond between the continental linear directions, its psycho-geographic potentiality and a bridge less unstable, built upon sharing, discussion and exchange.
