## Castello di Rivoli Museum of Contemporary Art

The historic and cultural mission of the Castello di Rivoli Museo d'Arte Contemporanea, established in 1984, is to **promote research and understanding of the art of our times, stimulating the public and**

contributing to the social and civil development of the territory in which it operates.

The Museum works as a place of comparison and growth in creativity, of knowledge and skills in the field of contemporary art. One of its roles is as an “antenna” for today’s world: it follows the international and radical art movements in a constant dialogue between history and current events. A vital centre for experimentation, through its work it promotes the spread of young Italian and international artists’ work. The Museum guides this virtuous process by drawing up **a coherent cultural and exhibitions programme focused on** the one hand on the promotions of its extraordinary **collection**, and on the other on the organisation of prestigious and broad-ranging **temporary exhibitions**.
