NEON

NEON is a nonprofit organisation that works to bring contemporary culture closer to everyone. It is committed to broadening the appreciation, understanding, and creation of contemporary art in Greece and to the firm belief that this is a key tool for growth and development.

NEON organises **exhibitions and events**, supports artists working today through a **programme of scholarships and grants**, and develops **education projects** which cultivate the relationship between young people and awareness of contemporary art. It partners with cultural institutions to develop its work.

NEON, founded in 2013 by collector and entrepreneur Dimitris Daskalopoulos, breaks with the conventional model of a contemporary art foundation limited to a single location. Acting within a multitude of initiatives, spaces, and civic and social contexts, it seeks to expose the power of contemporary art to stimulate, inspire, and affect both the individual and society at large. NEON constructively collaborates with public and private cultural institutions and supports programs that increase access and interaction with contemporary art.
