### In-Visible

At the origin of its activities In-Visble provided mostly services in professional audiovisual domains; such as camera and lighting equipment. Over the time it also added more services. Equipment rental, non-linear editing systems, powerful graphic computers, 3D animation, and web orientated tools. In-visible production includes, commercials, multimedia projects, documentary films, educational or corporate communication films. The company is equipped to offer full post-production services in editing, composting, encoding and video duplication. In animation, the company proposes 3D modeling, architectural simulation and virtual 3D web production.
